Description	
Since a user cannot sync a repo that doesn't contain a feed (URL), we probably should not make the 'Sync Now' button available.	
1. create a product	
2. create a repo without a URL (feed)	
3a. from from the product list, check the repo	
- observe that 'Sync Now' is available for the repo	
3b. select the repo, opening it's edit pane	
- observe that 'Sync Now' is available for the repo
