

Foreman - Bug #465

Migration AddOwnerToHosts fails with PostgreSQL

11/14/2010 09:53 AM - Jochen Schalanda

Status: Closed	
Priority: Normal	
Assignee: Jochen Schalanda	
Category: DB migrations	
Target version: 0.2	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
<p>The database migration AddOwnerToHosts in db/migrate/20100419151910_add_owner_to_hosts.rb fails when being run with PostgreSQL as database.</p>	
<pre>\$ rake db:migrate (in /usr/share/foreman) == AddOwnerToHosts: migrating ===== -- add_column(:hosts, :owner_id, :integer) -> 0.0026s -- add_column(:hosts, :owner_type, :string) -> 0.0007s -- setting default owner for all hosts rake aborted! An error has occurred, this and all later migrations canceled: PGError: ERROR: invalid input syntax for integer: "" : UPDATE "hosts" SET owner_id = '' (See full trace by running task with --trace) The value of owner.id, which is used in the migration, is not known at this stage of the migration.</pre>	

History

#1 - 11/14/2010 10:09 AM - Ohad Levy

but this will just skip the migration in this case - right?

#2 - 03/15/2011 05:07 AM - Ohad Levy

- Target version set to 0.2

#3 - 03/15/2011 08:54 AM - Ohad Levy

- Status changed from New to Closed

- Priority changed from Low to Normal
