

Foreman - Bug #4670

incorrect search string on operating systems page

03/15/2014 12:40 AM - Anonymous

Status: Closed	
Priority: Low

Pull request:	
Description	
On the "Operating Systems" page, there's a counter per OS on how many hosts this OS is installed. However, the search string that's used to generate a list of hosts, when clicking on this number, is wrong. E.g. "os = CentOS" is giving a list of all CentOS Hosts, regardless of their version.
