

Foreman - Bug #4673

Count columns should be sorted in descending order by default

03/17/2014 12:34 PM - Stephen Benjamin

Description	
For pages in the UI that allow sorting by count, it should be by descending order first (user wants to see the "interesting" information first).	
Scoped_search's rails sort helper doesn't support a default sorting order yet. When/if it does, then we should change the views.
