

Katello - Bug #4689

api v2 system update - passing content_view_id=nil errors

03/18/2014 08:04 PM - Thomas McKay

Status: Closed	
Priority: Urgent	
Assignee: David Davis	
Category: Content Views	
Target version: Katello 2.0	
Difficulty:	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
Creating a system in Library with content_view_id=nil puts it in the "Default Organization View" CV. Passing nil to update errors.	
Suggest either allow https://localhost:3000/katello/api/v2/content_views?organization_id=megacorp to return "Default Organization View" so the ID may be retrieved and then require it on both create and update, or allow nil to be passed to update.

There are a couple items on the back log item dealing with this and I may or may not work on that depending on who does what.

http://pad-katello.rhcloud.com/p/convent_view_backlog

If you want, you can add this bug to the back log so that whoever works on them can update this bug but we're already aware of this.

@daviddavis - what is the solution to this? (ie. do you wish to return the default CV id, or accept nil?). It seems fairly trivial to fix in the API and I could submit patch.

#4 - 03/19/2014 04:58 PM - David Davis

I'm torn. Actually I'd be ok with either or even both.

#5 - 03/20/2014 01:49 PM - David Davis

- Assignee changed from Thomas McKay to David Davis
- Priority changed from High to Urgent
