<b>Category:</b> Hammer	
<b>Target version:</b> Katello 2.0	
<b>Difficulty:</b> medium	<b>Fixed in Releases:</b>
<b>Triaged:</b> Yes	<b>Found in Releases:</b>
<b>Bugzilla link:</b>	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	
<b>Description</b>	
updated to the latest nightly build of rubygem-hammer_cli_katello-0.0.3-1.201403182248git62f913f.git.0.087e5ab.el6.noarch	
updated the cli_config.yml:	
/etc/foreman/cli_config.yml	
:modules:	
- hammer_cli_foreman	
- hammer_cli_katello	
running hammer only shows Foreman commands:	
1. hammer	
Warning: An error ocured while loading module hammer_cli_katello	
Usage:	
hammer [OPTIONS] SUBCOMMAND [ARG] ...	
Parameters:	
SUBCOMMAND	subcommand
[ARG] ...	subcommand arguments
Subcommands:	
shell	Interactive shell
global_parameter	Manipulate global parameters.
architecture	Manipulate architectures.
compute_resource	Manipulate compute resources.
domain	Manipulate domains.
sc_param	Manipulate smart class parameters.
environment	Manipulate environments.
fact	Search facts.
report	Browse and read reports.
puppet_class	Search puppet modules.
host	Manipulate hosts.
hostgroup	Manipulate hostgroups.
location	Manipulate locations.
medium	Manipulate installation media.
model	Manipulate hardware models.
os	Manipulate operating system.
organization	Manipulate organizations.
partition_table	Manipulate partition tables.
proxy	Manipulate smart proxies.
subnet	Manipulate subnets.
template	Manipulate config templates.
user	Manipulate users.

```

**#2 - 03/19/2014 02:38 PM - Og Maciel**

A package that seems to have regressed (as in its versions are now older than what it should be):

- rubygem-hammer\_cli-0.0.18-1.el6.noarch should be at least rubygem-hammer\_cli-0.0.18-6.el6sat.noarch or better

**#3 - 03/19/2014 02:52 PM - Garik Khachikyan**

cc-ed

**#4 - 03/20/2014 03:29 PM - Anonymous**

This is probably due to the new dependencies that we could not get added to the rpm spec in the foreman-packaging repo. We need somewhere to pull an updated rpm spec file from with the new dependencies or it will remain broken.

In the short term you should be able to yum install rubygem-locale from epel, get fast\_gettext here (if not just a yum install from the foreman repo): <http://koji.katello.org/koji/buildinfo?buildID=8697>, apipie-bindings here: <http://koji.katello.org/koji/buildinfo?buildID=8718>, and i18n for apipie-bindings here: <http://koji.katello.org/koji/buildinfo?buildID=8716>

After those 4 are installed you may also have to do 'foreman-rake apipie:cache' before it will actually work.

I did a PR to get fast\_gettext added to the comps file for foreman earlier this week. I'll take care of apipie-bindings now, but mbacovsk was just saying the i18n dep for apipie-bindings should go away very soon so I'm not sure it's worth adding it at all.

**#5 - 03/24/2014 04:34 AM - Mike McCune**

- Triaged set to Yes

**#6 - 04/01/2014 04:22 PM - Adam Price**

- Status changed from New to Ready For Testing

**#7 - 04/01/2014 05:15 PM - Mike McCune**

- Status changed from Ready For Testing to Closed

works perfectly now

**#8 - 08/21/2014 02:30 PM - Eric Helms**

- translation missing: en.field\_release set to 13
