History

- File Screenshot from 2014-03-19 12_37_18.png added

Despite adding two RHEL products to a content view and publishing it, the content view details page shows that no packages/errata are present.

#2 - 03/19/2014 04:48 PM - Mike McCune

This is misleading as the counts aren't accurately reflecting what is available in the Content View. Content Search should show the updated counts.

It looks like the publish is working fine just the UI doesn't properly show the correct counts.
