Description	
<p>I cannot seem to get errata to reliably display for a registered system.</p> <p>The underlying RHEL product/repo has been synced for hours, goferd and the rhsm services have been running for hours, but no errata was displaying.</p> <p>After running various commands, it appears that the errata showed up, but I am not sure which one actually made it happen (rhn_check, subscription-manager repos, yum repolist, etc etc.)</p> <p>One would expect that as soon as a sync event has finished for a product that any system subscribed to that product/repo should get the errata list showing shortly thereafter.</p> <pre>[root@satellite foreman-proxy]# rpm -qa grep -E "foreman katello" sort foreman-1.5.0-0.develop.201403182248gitdf471c7.el6.noarch foreman-postgresql-1.5.0-0.develop.201403182248gitdf471c7.el6.noarch foreman-proxy-1.5.0-0.develop.201403141615git2f75941.el6.noarch foreman-release-1.5.0-0.develop.201403182248gitdf471c7.el6.noarch katello-1.5.0-14.201403182251gita638704.el6.noarch katello-apache-1.0-1.noarch katello-ca-1.0-1.noarch katello-certs-tools-1.5.2-1.git.1.edab2c4.el6.noarch katello-installer-0.0.19-1.201403121737git943ff82.el6.noarch katello-repos-1.5.1-1.git.14.0868bd1.el6.noarch pulp-katello-plugins-0.2-1.el6.noarch ruby193-rubygem-foreman-tasks-0.4.0-1.el6.noarch ruby193-rubygem-katello-1.5.0-10.201403182251gita638704.el6.noarch rubygem-foreman_api-0.1.11-1.el6.noarch rubygem-hammer_cli_foreman-0.0.18-1.el6.noarch rubygem-hammer_cli_foreman_tasks-0.0.1-3.el6.noarch rubygem-hammer_cli_katello-0.0.3-1.201403182248git62f913f.git.0.087e5ab.el6.noarch rubygem-katello_api-0.0.8-1.201403182244git25f03d8.git.0.b35bfd.el6.noarch</pre>
