Foreman - Bug #472

Destroying domains redirects to main domain

Description

I got lots of empty domains(0 hosts) due to different reasons, bad naming, rename, decommissioned, etc. When deleting them on say page 5, I got redirected to main page /domains, and since domains has no checkboxes as hosts view for multiple deletion, I have to get back to the page that I left to continue.

It would be nice that after deleting a domain it loaded the same page.

Since I'm not sure if this is the desired behaviour or not I'm marking as a bug.

Seen on 0.1-6

Thanks.
