This may be related to not having the katello plugin enabled via " - hammer_cli_katello", however there is also a bug <http://projects.theforeman.org/issues/4696> so this may potentially be erroneous.

- Triaged set to Yes

#3 - 03/21/2014 08:20 PM - Mike McCune

- Triaged deleted (Yes)

#4 - 03/21/2014 09:50 PM - Mike McCune

- Status changed from New to Closed

- Triaged set to No

This is because you need to use 'lifecycle-environment' CLI command.

FYI:

Environment = Puppet Environment (specific to Foreman)

Lifecycle Environment = Katello's Deployment (Lifecycle) environment

confusing for sure.
