Pull request:

# **Description**

**Priority:** 

% hammer -v subscription upload --organization-id megacorp --file test/data/megacorp.zip

....this will work first time....

% hammer -v subscription upload --organization-id megacorp --file test/data/megacorp.zip

ERROR 2014-03-20 11:15:13 Exception ForemanTasks::Lock::LockConflict

Manifest upload failed:

ForemanTasks::Lock::LockConflict

In this case, an error importing the manifest happened ("manifest already imported") and this should be a non-error information message to user.

Other cases (such as trying to import that manifest into an org other than megacorp) will generate real error message which should be displayed to user and dynflow task completed anyway (with rollback if necessary).

Fixed in Releases:

## **Associated revisions**

#### Revision f5312a9b - 06/10/2014 03:14 AM - Ivan Necas

Fixes #4748 - don't lock on manifest operations fail

Instead, skip the failed action and report the errors in the task output.

# Revision 6cb65c11 - 06/10/2014 07:14 AM - Ivan Necas

Fixes #4748 - don't lock on manifest operations fail

Instead, skip the failed action and report the errors in the task output.

# Revision b3fb9ab1 - 06/10/2014 07:14 AM - Ivan Necas

Fixes #4748 - update dependencies

## Revision a5a08511 - 06/10/2014 09:05 AM - Ivan Necas

Merge pull request #4206 from iNecas/issue/4748

Fixes #4748 - don't lock on manifest operations fail

#### #4 - 04/02/2014 09:39 PM - Mike McCune

we should just have the dynflow step get skipped and the task end up in stopped:error state vs paused. Paused causes you to not be able to resolve the issue without having to go to the dynflow console.

## #5 - 04/09/2014 11:44 PM - Mike McCune

## WORKAROUND:

- 1. navigate to: https://yourhost/foreman\_tasks/dynflow
- 2. find the task that is paused with Error
- 3. click on the details for it. Find the step that is errored out, click the 'skip' link
- 4. Resume the task
- 5. Repeat skipping substeps if there are further errors

Once you have the task in the Finished state you can import a manifest

## #6 - 04/24/2014 08:24 PM - Justin Sherrill

- translation missing: en.field\_release set to 13

## #7 - 04/30/2014 04:42 PM - Bryan Kearney

- Bugzilla link set to https://bugzilla.redhat.com/show\_bug.cgi?id=1093124

## #8 - 05/28/2014 07:47 AM - Ivan Necas

- Status changed from New to Assigned
- Target version set to 45

#### #9 - 06/10/2014 09:52 AM - Ivan Necas

- Status changed from Assigned to Closed
- % Done changed from 0 to 100

Applied in changeset katello|commit:6cb65c11e6743f3aaadabc462f9f33e9d49c8445.
