Pull request:			

Description

Errata by date/type filters are not correctly displaying the types that were selected by the user. Instead, all types are always displayed as selected.

1. create a content view, add a repo with errata
2. create an 'Errata by Date/Type filter'
3. observe that all types are selected (i.e. security, enhancement & bugfix)
4. unselect or more of the types
5. save the filter
6. re-open the filter
7. observe that all types are selected (i.e. security, enhancement & bugfix)

Associated revisions

Revision 461808b4 - 03/27/2014 10:57 PM - Brad Buckingham

fixes #4931 - content view errata by date/type rule - default types to false

This minor change is so that the UI will not always show the
types (enhancement, security, bugfix) as selected/checked.
In other words, the default value is unselected and then overriden
based on the types retrieved from the server.

Revision 17f9b258 - 03/28/2014 02:57 AM - Brad Buckingham

fixes #4931 - content view errata by date/type rule - default types to false

This minor change is so that the UI will not always show the
types (enhancement, security, bugfix) as selected/checked.
In other words, the default value is unselected and then overriden
based on the types retrieved from the server.
