

Katello - Bug #4948

Syncing a product results in Content Search not showing packages

03/28/2014 09:07 PM - Bryan Kearney

Status: Closed	
Priority: High

Pull request:	
Description On a clean install, I created a product a single repo and then I synced it down. The task shows complete and it shows 8 packages which is also correct. When I click on the '8 Packages' from the product page it takes me to content search. I can not see the packages reflected there.	

History

#1 - 03/28/2014 09:10 PM - Bryan Kearney

- Priority changed from Normal to High

#2 - 03/31/2014 05:15 PM - Bryan Kearney

If I go to the content search, and select Content = Packages and then search, I see this in the logs;

#	# {	# "error": "IndexMissingException[[katello_package] missing]",	# "status": 404	# }
---	-----	--	-----------------	-----

dev setup +

```
[bkearney@bkearney hammer-cli]$ for i in `rpm -qa | grep -iE
```

```
"^rubygem-hammer|^katello|^pulp|^candlepin|^foreman|^headpin|^thumbslug|^elasticsearch|ldap|signo|ruby193-rubygem-runcible" | sort`; do echo "$i"; done
```

- Status changed from New to Closed

Not seeing this on the production install, so I am closing this out. Must be my dev instance some how.
