

Katello - Bug #4969

Non visible errata can be 'added' on Content View Add errata by ID filter

03/31/2014 01:51 PM - Justin Sherrill

Status: Closed	
Priority: Normal	
Assignee: Partha Aji	
Category: Web UI	
Target version: Katello 2.0	
Difficulty: medium	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description 1. Sync a repo with some errata 2. Create a content view and add a repo with errata 3. Create an 'errata by id' filter. 4. on the 'add' errata tab, select a bunch of errata 5. Unselect one or more types such that only a subset of those selected are visible 6. Click add Result: All errata originally selected are added. Options: a) De-select all errata when making a filter change b) De-select errata that are filtered out from the list

Revision 0d36f07f - 06/24/2014 10:58 AM - Eric Helms

Fixes #6176, #5030, #4969, BZ1103492: Improving interaction of content view errata id filters.

The previous content view errata id filter would continuously load all errata in chunks in order to allow client side filtering. And, while this worked for small errata sets, larger errata sets such as RHEL 6.5 (2500ish errata) were unwieldy and led to confusion. This change does the following:

- moves all type and date filtering server side
- enabled UI select all behavior to allow adding errata that is not currently visible client side\
- adds a new option to create errata id content view filter rules with a bulk set of errata or based on a search/param query

Revision 09e44c33 - 06/24/2014 02:58 PM - Eric Helms

Fixes #6176, #5030, #4969, BZ1103492: Improving interaction of content view errata id filters.

The previous content view errata id filter would continuously load all errata in chunks in order to allow client side filtering. And, while this worked for small errata sets, larger errata sets such as RHEL 6.5 (2500ish errata) were unwieldy and led to confusion. This change does the following:
