

Katello - Bug #4974

When not selecting puppet master, setting rhsm repo_url is not correct

03/31/2014 03:47 PM - Ivan Necas

| Bugzilla link: | Red Hat JIRA: |
| Pull request: | |
| Description | |
| 1. provisioning a host using Katello Kickstart without selecting puppet master 2. see the preview of provisioning template for the host | |
| It contains | |
| <pre>subscription-manager config --rhsm.baseurl=https:///pulp/repos</pre> | |
| These lines should not be there. The template for subscription_manager_registration should have something like this to handle that properly: | |
| <pre><% @host.puppetmaster && !@host.puppetmaster.empty? %> subscription-manager config --rhsm.baseurl=https://<%= @host.puppetmaster %>/pulp/repos <% end %></pre> | |
