

Foreman - Bug #4976

Partition table is not required when creating host with network provisioning

03/31/2014 03:56 PM - Ivan Necas

Status: Closed	
Priority: Normal	
Assignee: Ivan Necas	
Category: Host creation	
Target version: 1.5.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
However, kickstart templates count on it and it fails badly when rendering it:	
<pre>Processing by UnattendedController#provision as HTML Parameters: {"hostname"=>"rhel6-1.katellolabs.org"} Found rhel6-1.katellolabs.org Operation FAILED: private method `layout' called for nil:NilClass Completed 500 Internal Server Error in 145ms app/models/host/managed.rb:249:in `diskLayout' app/controllers/unattended_controller.rb:196:in `kickstart_attributes' app/controllers/unattended_controller.rb:170:in `load_template_vars' app/models/concerns/foreman/thread_session.rb:33:in `clear_thread'</pre>

Revision e4fde4e3 - 04/02/2014 11:01 AM - Ivan Necas

Fixes #4976 - ensure the process is really running inside a rake task

History

#1 - 03/31/2014 03:57 PM - Dominic Cleal

- Subject changed from *Partitiona table is not required when creating host with network provisioning* to *Partition table is not required when creating host with network provisioning*
- Category set to *Host creation*

#2 - 04/01/2014 08:57 AM - Ivan Necas

- Status changed from *New* to *Assigned*
- Assignee set to *Ivan Necas*

More details: this happens only with Katello in place.

The cause is Foreman uses this to determine if it's running in rake task or not:

```
if defined? Rake
```

However, tire gem requires rake in non-rake task as well, so the constant is defined.

I will update the code, extract the checking on running in rake to a single method and use more complex logic to determine it's really running from rake.
