

Katello - Bug #5020

Pulp is not picking up the events when syncing a repo

04/02/2014 10:20 AM - Jiří Mikulka

Status: Closed	
Priority: High	
Assignee: Ivan Necas	
Category: Installer	
Target version: Katello 2.0	
Difficulty:	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
One is unable to synchronize a repository (the status is always "Pending") due to misconfiguration of pulp. The traceback produced is:	
<pre>\$ cat /var/log/pulp/pulp.log [...] 14-04-01 12:15:57,119 qpid.messaging:WARNING: recoverable error[attempt 3]: Connection hostname 'localhost' does not match names from peer certificate: ['<hostname>', u'<hostname>'] 2014-04-01 12:15:57,119 qpid.messaging:WARNING: sleeping 4 seconds 2014-04-01 12:16:01,123 qpid.messaging:WARNING: trying: localhost:5671 2014-04-01 12:16:01,133 qpid.messaging:WARNING: recoverable error[attempt 4]: Connection hostname 'localhost' does not match names from peer certificate: ['<hostname>', u'<hostname>'] [...]</pre>	
The correct pulp configuration should be done in /etc/pulp/server.conf: url: ssl://localhost:5671 ==> url: ssl://<hostname>:5671	

Associated revisions

Revision dca425e2 - 04/02/2014 06:31 AM - Ivan Necas

Fixes #5020 - use fqdn in the messaging url

The latest updates in some ssl related package made the verification of the hostname against the cert CN enabled, causing pulp not being able to communicate with qpid.

Revision 2604bd1c - 04/02/2014 11:29 AM - Mike McCune

Merge pull request #21 from iNecas/issue/5020

Fixes #5020 - use fqdn in the messaging url
