Description	
The radio input on the bulk alter sync plans page is not accurate.	
It needs to be unselected after unattach and selected if a sync plan is selected	
Steps to Reproduce	
<ol style="list-style-type: none">1. Create one or more products2. Go to the products list3. Select one or more products4. Go to the bulk actions page5. Go to the alter sync plans tab6. Notice the correct sync plan is not selected after you add one, reload the page, unattach, etc.	

History

- Status changed from New to Assigned

#2 - 04/03/2014 08:16 PM - Walden Raines

- Status changed from Assigned to Closed

This is invalid because we are talking about multiple products that may have differing sync plans. There is no real way to show which sync plan is selected for each product.
