Pull request:			

Description

is this operator error?

```
# hammer content-view add-repository --organization-id=DemoOrg --name=RHEL6 --repository="Red Hat
Enterprise Linux 6 Server RPMs x86_64 6Server"
Could not add repository:
  Error: Unrecognised option '--organization-id'

  See: 'hammer content-view add-repository --help'

# hammer content-view add-repository  --name=RHEL6 --repository="Red Hat Enterprise Linux 6 Server
 RPMs x86_64 6Server"
Could not add repository:
  One of parameters [ organization_id ] required but not specified.
```

tried with _

```
# hammer content-view add-repository --organization_id=DemoOrg --name=RHEL6 --repository="Red Hat
Enterprise Linux 6 Server RPMs x86_64 6Server"
Could not add repository:
  Error: Unrecognised option '--organization_id'

  See: 'hammer content-view add-repository --help'
```

help shows:

```
# hammer content-view add-repository --help
Usage:
    hammer content-view add-repository [OPTIONS]

Options:
    --id ID                         resource id
    --name NAME                     resource name
    --repository REPOSITORY
    --repository-id REPOSITORY_ID
    -h, --help                      print help
```

It appears using the --name=RHEL6 is broken. If you use --id=3 (or whatever the id is of that content view) along with --repository-id=5 it seems to work. Still digging.

- Subject changed from Urgent: Can't add repos to a content view to Can't add repos to a content view

#6 - 04/05/2014 02:00 PM - David Davis

FYI, this worked a couple weeks ago:

```
hammer content-view add-repository  --id 2 --repository-id 1
```

#7 - 04/05/2014 02:02 PM - David Davis

~~Here's the PR that added the name option to commands (I think):~~

#8 - 04/05/2014 02:16 PM - David Davis

I see now that we're getting the name option from HammerCLIForeman. Will open a PR.
