

Katello - Bug #5110

hammer --organization-id option does not expect organization id

04/08/2014 01:52 PM - Bryan Kearney

Status: Resolved	
Priority: Normal	
Assignee: Adam Price	
Category: Hammer	
Target version: Katello 2.0	
Difficulty: easy	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link: 1084927	Red Hat JIRA:
Pull request:	
Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1084927	
Description of problem:	
Even if	
1. hammer system-group create --help writes about option --organization-id ORGANIZATION_ID organization identifier organization id isn't expected	
Version-Release number of selected component (if applicable): sat6-Satellite-6.0.3-RHEL-6-20140404.0-Satellite-x86_64-dvd1.iso	
How reproducible: always	
Steps to Reproduce:	
1. list organizations via hammer	
1. hammer organization list	
--- ----- ----- ----- ID NAME LABEL DESCRIPTION --- ----- ----- ----- 1 ACME_Corporation ACME_Corporation ACME_Corporation Organization --- ----- ----- -----	
2. create new group named "grupa" using hammer	
2. hammer system-group create --organization-id 1 --name grupa	
Actual results:	
1. hammer system-group create --organization-id 1 --name grupa Could not create the system group: Couldn't find organization '1'	
Expected results: Group created.	
Additional info: Passing organization label(name) instead of id works;	
1. hammer system-group create --organization-id ACME_Corporation --name grupa System group created	
Either hammer help shall be updated to expect --organization-label, or organization id shall be expected.
