

Katello - Bug #5142

repository create form sending up empty string which pulp errors on as feed

04/10/2014 04:32 PM - Thomas McKay

Status: Closed	
Priority: Normal	
Assignee: Justin Sherrill	
Category:	
Target version: Katello 2.0	
Difficulty:	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link: 1086355	Red Hat JIRA:
Pull request:	
Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1086355 Page 11 Section 3.3 Step 6 - Clicking Save gives brief spinner but does not leave page. No error displayed in UI.	
The 'feed' form param is getting sent as "" (empty string). This is reproducible by entering a URL value in the form and then clearing it. (The step doesn't mention URL so I pasted the previous path there before deleting it before form submission. No error in UI. Can see error state in /foreman_tasks/dynflow (See @jsherrill for debug)	

Associated revisions

Revision cd41f287 - 04/11/2014 12:09 AM - Justin Sherrill

fixes #5142 - fixing error on repo create with empty string

pulp does not treat empty string for feed urls the same as nil. As a result repo creation would fail. This fixes the issue by doing 2 things:

- convert empty string to nil at repo creation time
- explicitly do not accept empty string in the url validator

Revision 1e1863cf - 04/14/2014 04:33 PM - Justin Sherrill

Merge pull request #3969 from jsherrill/repo_feed

fixes #5142 - fixing error on repo create with empty string
