

Katello - Bug #5147

UI Subscriptions refresh_manifest and delete_manifest pointing to wrong controller

04/10/2014 06:28 PM - Partha Aji

Status: Resolved	
Priority: Normal	
Assignee: Partha Aji	
Category:	
Target version: Katello 2.0	
Difficulty:	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
The dynflowed refresh and delete manifest actions are in subscriptions controller. The cli uses this controller. However the UI still points to the old setup point to the providers controller which does not dynflow stuff. We need to update the ui to use the subscriptions controller.
