### Description

I work with AMS and recently was granted access to provision new hosts. However, whenever I click the New Host button, I receive the following error (full trace follows):

NoMethodError
undefined method `id' for nil:NilClass
app/views/hosts/_form.html.erb:33:in `block (2 levels) in *app_views_hosts*

app/models/concerns/foreman/thread_session.rb:33:in `clear_thread'

Is there something else that I should do before I am able to provision hosts? Please let me know if you have any questions!

Thanks,
Ben

*- Category set to Web Interface*

Yes, please provide us exact version of Foreman you are using.

Quick look to the code base looks like it could be something with Organizations or Locations.

Do you have Org/Loc support enabled? (See the manual how to do that/check that).

Can you do the Organization mismatch report (See the manual - go to organizations and click mismatch report)?
