

## Foreman - Bug #5153

### Foreman-proxy fails silently when medium\_id is not supplied

04/10/2014 09:25 PM - Stefan c

<b>Status:</b>	Duplicate	<b>Fixed in Releases:</b> <b>Found in Releases:</b> 1.4.2 <b>Red Hat JIRA:</b>
<b>Priority:</b>	Normal

<b>Target version:</b>		
<b>Difficulty:</b>		
<b>Triaged:</b>		
<b>Bugzilla link:</b>		
<b>Pull request:</b>		
<b>Description</b>		
<b>Description of issue:</b> When using the foreman api v1 to create a host, and ommiting the medium_id, theforeman proxy fails immediatly and silently without logging in proxy.log that I haven't told it about a medium_id.		
<b>Specs:</b> Foreman 1.4.2 installed via foreman puppet modules centos 6.4 x64 Foreman-proxy: DHCP and TFTP enabled, everything else disabled ( proxy installed via puppet modules )		
<b>How to reproduce:</b> - install foreman 1.4.2 - install foreman-proxy and enable just DHCP and TFTP - create a new host via the API and don't supply the medium_id, supply just these parameters(adjusting the values for your setup):  <code>architecture_id: 1, operatingsystem_id: '1', enabled: true, build: true, domain_id: 1, environment_id: '1', ptable_id: 6, subnet_id: 1</code>		
<b>Output of logs:</b> - from foreman - from foreman-proxy - output via HTTP body from the API you'll find all 3 in this gist <a href="https://gist.github.com/stefancocora/10369030">https://gist.github.com/stefancocora/10369030</a>  After ohadlevy advised over irc to add medium_id the TFTP build process started and completed successfully.

Is duplicate of Foreman - Bug #6229: validate installation media exists for n...		<b>Closed</b> 06/16/2014

#### History

##### #1 - 04/11/2014 08:34 AM - Lukas Zapletal

- Project changed from Foreman to Smart Proxy
- Category changed from API to TFTP

Thanks for reporting this.

##### #2 - 02/29/2016 09:54 AM - Anonymous

- Project changed from Smart Proxy to Foreman
- Category deleted (TFTP)

This looks like an issue in Foreman either api parameter validation, or orchestration (<https://github.com/theforeman/foreman/blob/develop/app/models/concerns/orchestration/tftp.rb#L76>).

**#3 - 02/29/2016 10:04 AM - Dominic Cleal**

- *Is duplicate of Bug #6229: validate installation media exists for new host if pxe\_build added*

**#4 - 02/29/2016 10:04 AM - Dominic Cleal**

- *Status changed from New to Duplicate*

This should have been fixed in Foreman 1.6 or higher via [#6229](#). If not, please re-open. Thanks for the report.
