Description

You cannot add a system to a system group from the registered systems page, it looks as if the POST was successful but the system is not actually added.

Steps to Reproduce

1. **Go to an org with at least one registered system and one system group**
2. **Go to the system's details page**
3. **Go to the system groups page**
4. **Attempt to add the system**
5. **Notice that it looks successful but that it was not**
