Foreman - Bug #5171

When editing a puppetclass parameter, wrong parameter information is displayed

04/11/2014 11:49 PM - Anonymous

Status:	Resolved		
Priority:	Normal

Pull request:			

Description

When you click on a puppet class to edit, and then navigate to the 'Smart Class Parameter' tab, the first parameter in the list is selected. However, the information on the right is for another parameter. Image attached.

I've never seen this before.. it may be worth re-testing on 1.5/nightly as the UI here has been improved a bit. There's a chance whatever issue this is/was may have been fixed in the process.

#5 - 04/15/2014 06:06 AM - Stephen Benjamin

I see it in nightly, too.

The left panel highlights the first parameter alphabetically, while the right panel shows the first overridable parameter.

- Has duplicate Bug #5872: smart class parameter display bug added

#8 - 07/23/2014 08:10 AM - Alexandre Barth

this problem still remains in 1.6.0 develop (nightly builds)

#9 - 02/11/2015 04:57 AM - Alexandre Barth

do not have this problem anymore since 1.7

#10 - 02/11/2015 05:05 AM - Dominic Cleal

- Status changed from New to Resolved

Thanks for confirming!
