

Katello - Bug #5231

System Groups: Unable to select links on Group Actions

04/17/2014 03:40 PM - Brad Buckingham

Status:	Closed	
Priority:	Normal	
Assignee:	Eric Helms	
Category:	Web UI	
Target version:	Katello 2.0	
Difficulty:		Fixed in Releases:
Triaged:	Yes	Found in Releases:
Bugzilla link:	1096183	Red Hat JIRA:
Pull request:		

Description

Attempting to select a link from the Group Actions pane of a system group, will not properly redirect the user to the systems page, due to a javascript error.

Scenario:

1. Go to Hosts -> System Groups
2. Select a system group
3. Click Group Actions
4. Click one of the links on the pane (e.g. "Package Installation, Removal and Update")

Observe page attempts to redirect to the Systems page; however, it fails to render.

Observe a javascript error in the browser console that looks similar to:

```
TypeError: Object #<Object> has no method 'allSelected'
```

```
at Object.self.table.selectAllResults (
```
