Foreman - Bug #5389

URL doesn't update correctly after creating a new host

04/22/2014 08:59 AM - Ohad Levy

Status:	Closed		
Priority:	Normal		
Assignee:	Amos Benari		
Category:	Web Interface		
Target version:	1.5.0

Pull request:			

Description

When creating a new host successfully, foreman redirects to the host show page, however, the url remains /hosts/new.

This seems to break the AJAX which updates the VM info.

- Related to Bug #5065: pressing "Cancel Build"/"Build" button returns a 404 if the host has been just renamed. added

#2 - 04/22/2014 08:51 PM - Stephen Benjamin

I hit this now where the VM power controls aren't loading anymore due to this bug.

Ohad pointed out the relevant Javascript is here:

```
[22:06] < ohadlevy> Dominic: i dont think its hard to fix, its at
                    https://github.com/theforeman/foreman/blob/develop/app/assets/javascripts/host_edit.js#L86
```

I poked it with a stick to see if I could get it to something. I'm not sure exactly what I'm doing with jQuery... it seems I need to return response.redirect so the javascript triggers a true redirect instead of loading the content into a div or whatever it's doing there.
