Katello - Bug #5422

Every user interaction in API/CLI cause user orchestration to trigger

04/24/2014 09:52 AM - Ivan Necas

Status:	Closed		
Priority:	High		
Assignee:	Ivan Necas		
Category:	API		
Target version:	Katello 2.0		
Difficulty:		**Fixed in Releases:**	
Triaged:	Yes	**Found in Releases:**	
Bugzilla link:		**Red Hat JIRA:**	
Pull request:			

Description

This leads to slower responses, as well as issues with locking when the orchestration is running.

It happens because the `user.last_logged_in` is being update every time the API is used by the user.

The fix should be not running the orchestration when this update happens.
