<b>Pull request:</b> <a href="https://github.com/foreman/foreman/pull/5022">https://github.com/foreman/foreman/pull/5022</a>	
<b>Description</b>	
Quoting abenari:  note that [image provisioning] doesn't work well with the compute profiles, because both uses ovirt templates. Compute profiles can be reimplemented to utilize the new planned (ovirt 3.5?) feature instance type:  <a href="http://www.ovirt.org/Features/Instance_Types#Instance_Types_28Flavors.29">http://www.ovirt.org/Features/Instance_Types#Instance_Types_28Flavors.29</a> once it will be implemented by ovirt.  Seems like we should reserve use of "templates" for image provisioning only, then have general provisioning and compute profiles use instance types instead.	

#### Associated revisions

##### Revision 9034d78e - 11/23/2017 02:43 PM - Baptiste

fixes #5441 - Add instance\_type support to oVirt provider

#### History
