Note: Labels are not allowed to be updated, once created they are permanent. The error is that hammer (and/or the api, and/or apipie) is allowing
label to be passed into update. This are should be rejected (or ignored).

#3 - 04/28/2014 04:45 PM - dustin tsang

- Status changed from New to Closed

Closing as "Not a Bug":

Hi Adam, closing as "not a bug". The behavior is correct since Satelite6 uses the label as human-readable ids. Labels should also be immutable.
