Foreman - Bug #5489

Permission migration script can create invalid search conditions

04/29/2014 03:16 PM - Marek Hulán

Status:	Closed

Pull request:			

Description
after migration a user reported filters with search phrases like "(() or (compute_resource_id = 2))" which raises scoped search exceptions, we should go over the whole migration script and make sure we can't detect empty conditions

one clue (but worth of checking all condition generating)

```
the only users who had the incorrect search string syntax were ones that had ownership of more than one hostgr
oup
```

#3 - 04/29/2014 03:30 PM - Dominic Cleal

- Target version set to 1.8.3

- translation missing: en.field_release set to 4

- Status changed from New to Assigned

- Assignee set to Dominic Cleal

#5 - 05/01/2014 03:03 PM - Dominic Cleal

To reproduce:

0. Use pre-#812 Foreman
1. Create a user with the "View hosts" role (#5540)
2. Edit the user, add two **types** of filter: a domain filter + a host group filter. Do not tick owned hosts.
3. Migrate to post-#812
4. Check the custom role + filter added, you'll see: (() or (domain_id = 1)) or (hostgroup_id = 1)
