

## Foreman - Bug #5553

### Filter create/edit breaks if the resource type does not have a corresponding controller with 'autocomplete\_search'

<b>Pull request:</b>		
<b>Description</b> If a permission set is created and specifies a resource type that does not contain an autocomplete route, the permissions aren't loaded by the UI and leaves the user in a weird broken state that they are unaware of. The line that leads to this is - <a href="https://github.com/theforeman/foreman/blob/develop/app/helpers/filters_helper.rb#L14">https://github.com/theforeman/foreman/blob/develop/app/helpers/filters_helper.rb#L14</a> which throws a backend error since the first argument is nil.
