

Katello - Refactor #5575

Rename Katello model KTEEnvironment to LifecycleEnvironment

Description	
<p>To prevent conflicts with foreman's environment, the environment related routes in Katello are going to get renamed to lifecycleEnvironment. This has already happened on UI . However the model in katello is still inconsistently named KTEEnvironment as opposed LifecycleEnvironment. At some point in the near future we are going to have to do this rename.</p> <p>Also foreman's permission system uses the name of a model to translate to appropriate routing path. If the model is KTEEnvironment it expects that this model will govern kt_environment* paths. With the kt_environment* paths now called lifecycle_environment paths we are going to run into issues (hopefully foreman will fix this ,,,)</p> <p>So this rename needs to happen.</p>
