

Foreman - Feature #559

auto fetch subnet information from the proxy

12/23/2010 09:36 AM - Ohad Levy

Status: Duplicate	
Priority: Normal	
Assignee:	
Category: Smart Proxy	
Target version:	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description Instead of creating the subnets manually, foreman can populate most of the subnet data via the proxy	
Related issues: Is duplicate of Foreman - Feature #1201: Import Subnets from DHCP server Closed 10/02/2011
