

Foreman - Bug #5634

Users using apache sso are redirected to /users/login at session timeout

05/08/2014 03:04 PM - Stephen Benjamin

Status:	Closed	
Priority:	Normal	
Assignee:	Stephen Benjamin	
Category:	Authentication	
Target version:	1.7.0	
Difficulty:		Fixed in Releases:
Triaged:		Found in Releases: 1.5.0
Bugzilla link:		Red Hat JIRA:
Pull request:	https://github.com/foreman/foreman/pull/1429	
Description		
<p>When my session expires, I get redirected to /users/login. I should probably get redirected to /users/extlogin instead.</p> <p>I see where it's theoretically supposed to happen in app/controllers/concerns/foreman/controller/session.rb, but get_sso_method is returning nil, so it never calls the SSO provider's expiration_url and uses the default instead.</p> <p>Configured using the instructions in the manual.</p> <pre>Started GET "/" for 10.7.13.21 at 2014-05-08 17:03:01 +0200 Processing by DashboardController#index as HTML Session for Stephen Benjamin is expired. Unknown SSO method Redirected to https://gatebuilder.bitbin.de/users/login Filter chain halted as :session_expiry rendered or redirected Completed 302 Found in 85ms (ActiveRecord: 81.7ms)</pre>

The problem seems to be -- even logout does not work properly anymore. If you logout, you should get to /users/extlogout for one-click re-login.

This used to work when we've introduced the feature so there is some regression there.
