Revision f72591fa - 05/19/2014 04:47 PM - Partha Aji

Fixes #5654 - Permissions for env promotion/remove

This commit contains code to handle environment promotion and deletion.

Basic Rules

To Promote/Remove you need

- 1) promote_or_remove_content_views from content views
- 2) promote_or_remove_content_views_to_environment from lifecycle environments.

Note: Remove of a content view is slightly different from "destroy".
Remove implies removal of content view versions which could entail removal from environments.
