- Category set to Search

- Status changed from New to Resolved

Glad you got it sorted, was it an error in the search query or something?

#3 - 05/12/2014 11:55 AM - Apely AGAMAKOU

It was due to a weird query from myself ,

I'm working on a feature that it seems doesnt work "Update the location from facts"

I did everything create a fact : "location" and update the setting with this informations but still doesnt work.

Regards.

Reopening as this is a bug, probably in scoped_search.

To reproduce, search for "a b" on the fact_values page.
