Foreman - Bug #5689

Plugin permissions are skipped during migration from old to new system

05/13/2014 11:58 AM - Marek Hulán

Status:	Closed		
Priority:	Normal		
Assignee:	Marek Hulán		
Category:	DB migrations		
Target version:	1.5.1		
Difficulty:		**Fixed in Releases:**	
Triaged:		**Found in Releases:**	1.5.0
Bugzilla link:	1107696	**Red Hat JIRA:**	
Pull request:			

Description

Plugin initializer is loaded only once when running multiple migrations. Since plugin permissions are ignored (permissions table does not exist yet) they are not created in database and permission migration can't migrate them. Therefore we must find all plugin permission during permission migration and create them before that.
