

Katello - Bug #5729

New searchables for Content Host need to resolve for uuid instead of id, since create/update/show/delete are looking for uuid for input

05/14/2014 09:43 PM - dustin tsang

Description	
The api for Content Host currently takes uuid as the id of the Content host. Currently the commands correctly filters the Content Host but do not resolves for the id instead of the uuid

Revision a6009276 - 05/16/2014 05:25 PM - dustin tsang

Fixes #5729 - content-host lookup by uuid

Commands info, create, delete commands expect a uuid as the id.
Currently searchables for systems are resolving the db id, so the commands can not find the system by db id. This fix allows all systems searchables to obtain the uuid as the id.
