Pull request:	https://github.com/theforeman/foreman/pull/2607		

Description

Hi!

Thanks for making foreman, it's awesome!

In the Edit Host Page puppet classes get shortened, also the mouseover overlay gets shortened. Attached you can find a Screenshot. We also have longer names, where you just have to use some html magic and id-to-name -mappinng to get the righ class ;)

Thanks
Björn
