Fixes #5734 - API for external groups management

History

Actually, the support for basic external groups definitions and mapping is already in develop (1.5, in fact) via <http://projects.theforeman.org/issues/5241> and <https://github.com/foreman/foreman/pull/1390>. So the relation table is there and API support for manipulation of that mapping can go in independently of <http://projects.theforeman.org/issues/813>.
