Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1094186	
Description of problem: Search/filters doesn't work under CV filters. There are filter boxes to filter packages under package filters and similarly under package-group.	
None of them is actually working. Also search for filtering the name of CV filter doesn't work. I think we need to check all search/filters under CV.
