Katello - Bug #5776

org admin user cannot see or create lifecycle environments

05/17/2014 02:16 PM - Thomas McKay

Pull request:			

Description

org admin role: https://github.com/Katello/hammer-cli-csv/blob/master/test/data/roles.csv#L120

Visiting lifecycle-environment UI page does not show any existing environments (Library and Dev in my case), nor is there any way to create an environment.

History

#2 - 05/17/2014 02:18 PM - Thomas McKay

I missed an error in the log:

```
SQL (0.3ms)  SELECT "katello_environments"."id" FROM "katello_environments" WHERE "katello_environments"."orga
nization_id" = 3
ScopedSearch::QueryNotSupported: Field 'location_id' not recognized for searching!
/usr/local/rvm/gems/ruby-1.9.3-p448@foreman/gems/scoped_search-2.7.1/lib/scoped_search/query_builder.rb:450:in
 `to_single_field_sql'
```

Perhaps role incorrectly created via api and katello objects should validate that locations are not included in taxonomy?
