Foreman - Bug #5785

Override class parameter by subnet no longer works since 1.5

Triaged:		**Found in Releases:**	1.5.0
Bugzilla link:		**Red Hat JIRA:**	
Pull request:	https://github.com/theforeman/foreman/pull/3601		

Description

I have a puppet class parameter (master for munin::client) with the following order:

```
fqdn
subnet
hostgroup
os
domain
```

Then a match

```
subnet=172.17.0.0/16
```

with some value.

Before I upgraded to 1.5 the override worked, but since I upgraded to 1.5 it no longer does. I can see that since machines with subnet=172.17.0.0/16 no longer have munin graphs since the upgrade. One node that's in noop still has the correct master, but wants to change it to the default as well.

- Assignee set to Ori Rabin

Currently subnet matchers only work on the subnet label (for example, "subnet1 (192.168.1.0/24)").
This should be updated to match either the name or the network, or the documentation should be updated to indicate this behaviour.
