Pull request:			

Description

It would be great if it was possible to set the default console type and enable HA for a host provisioned through foreman.

History

#1 - 05/19/2014 01:59 PM - Dominic Cleal

- Category set to Compute resources

#2 - 09/26/2014 07:18 AM - Dominic Cleal

- Category changed from Compute resources to Compute resources - oVirt

#3 - 05/08/2018 12:52 PM - Shira Maximov

- Status changed from New to Duplicate

The request for high availability support is a duplication of this bug:
http://projects.theforeman.org/issues/17136

Regarding the request for the console type, we can't support all ovirt functionalities,
at the moment, it is possible to open a console from Foreman even though the console is SPICE or VNC.
