| Description Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1075496 Description of problem: PostgreSQL DB logging config is missing timestamps making debugging hard Version-Release number of selected component (if applicable): Satellite-6.0.3-RHEL-6-20140305.1 How reproducible: always Steps to Reproduce: 1. Check /var/lib/pgsql/data/pg_log/postgresql-*.log Actual results: No timestamp at the beginning of the file Expected results: Timestamp should be there | | |

History

#1 - 05/20/2014 01:05 PM - Dominic Cleal

- Category set to External modules

The pl-postgresql module could configure the log_line_prefix config setting to include a timestamp.

#2 - 04/05/2016 07:35 AM - Dominic Cleal

- Status changed from New to Resolved

Fixed in <https://github.com/puppetlabs/puppetlabs-postgresql/pull/754>.
