

Foreman - Bug #5832

too responsive UI when selecting organization

05/20/2014 04:16 PM - Dominic Cleal

Status: Closed	
Priority: Normal	
Assignee: Joseph Magen	
Category: Web Interface	
Target version: 1.6.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link: 1079205	Red Hat JIRA:
Pull request:	
Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1079205	
Description of problem: In webUI when you are selecting organization, it might be hard to do so as you need to follow precise mouse track so menu wont disappear.	
Version-Release number of selected component (if applicable): branded compose Satellite-6.0.3-RHEL-6-20140318.3 but seen it on other composes as well	
How reproducible: always	
Steps to Reproduce: 1. Try paths of mouse motion drawn to the attached screenshot	
Actual results: Red path do not work (sub-menu disappears), you have to move green one. This gets more painful when you have more organizations.	
Expected results: Both mouse paths should work.
