

## Katello - Feature #5863

### dynflow rollback needed when content host creation fails in either candlepin or pulp step

05/21/2014 07:12 PM - Thomas McKay

<b>Status:</b> Closed	
<b>Priority:</b> High	
<b>Assignee:</b>	
<b>Category:</b> Orchestration	
<b>Target version:</b> Katello 2.0	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>
<b>Triaged:</b> Yes	<b>Found in Releases:</b>
<b>Bugzilla link:</b> 1100007	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	
<b>Description</b>	
Scenario: Register a content host with an activation key that references a subscription whose quantity is already used. In this case the candlepin dynflow will fail but the katello content host activerecord will exist. The result is an AR w/ uuid=nil and the api/v2/systems will return no results (due to elasticsearch?)	

#### Associated revisions

##### Revision d98d29b7 - 05/28/2014 11:49 AM - Ivan Necas

Fixes #5863 - create consumer in plan phase

The failure is quite possible when creating a consumer in Candlepin (mainly because of the activation key might be over-consumed already).

##### Revision 71fa92b0 - 05/28/2014 12:34 PM - Ivan Necas

Merge pull request #4164 from iNecas/issue/5863

Fixes #5863 - create consumer in plan phase
