Description		
Rake is required for testing. This seems to be installed by default on Linux but is missing on Windows

maybe the right way to solve this, is to add bundler support with a rescue LoadError statement, so we would be able to use all of the defined gems if bundler is installed?

#3 - 11/15/2012 04:27 AM - Greg Sutcliffe

- Status changed from Feedback to Closed

We do use bundler now, so I'll close this.
